

Please do not lessen the Indiana Privacy Act.  
We are so thankful this law was passed.  
Previously it was horrible the way our home  
was constantly invaded by unwanted calls from  
solicitors. We seldom get any such calls now.  
We are so thankful that someone cared enough to  
allow this act to pass. It is extremely  
unsettling to think that this law might  
be taken away or changed in a way that will  
diminish its effects. My husband and I both work  
outside the home and our home is a like a refuge to  
us. When we come home we do not want unwanted calls  
invading the peace and comfort of our home. Thank  
you for taking the time to consider our strong  
opinion on this matter.  
Patty Horn
